Part I.

Rejection(s) discussed:

Claims discussed:
 on record

Prior art documents discussed:

Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:
 See Continuation Sheet

Part III.

- ☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.
☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

 (Examiner/SPE Signature)

 (Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner informed the attorney that the instant claims will be in condition for allowance upon clarification and correction of the following:

1. Capitalize the trademark names of simethicone and dimethicone in the instant specification and provide evidence that the generic compounds of the above trademark products, recited in claims 19 and 31 (in response to the non-final rejection of 1-12-04) correspond to the trademark compounds of the specification.
2. In claims 1 and 21, line 2 delete the word "disposed" to more clearly state that the fenofibrate, surfactant and cellulose are present on the neutral granule. further, the specification also fails to provide support to the word "disposed".
3. Insert the abbreviation "(HPMC)" in claim 2 after hydroxypropylmethylcellulose, and
4. Include the sub-headings "brief description of drawings" on page 6, after line 17 of the specification

Attorney agreed to the above suggestions and informed the examiner that evidence will be submitted in response to this interview. ..
